Make this change for the July 2010 workbook and implement as a SP without a FA date. Send this to FHWA after we release the workbook and include the FA date in the January 2011 workbook. Thanks.

**Subject:** Proposed Revision to SP1090000

Good Morning!

I had reason to look into SP1090000 due to a request from Construction to revise the timing for the placement of a proposed field office. They had requested changing the set-up time from 10 days prior to start of contract time to 30 days prior. I didn't see a problem with facilitating an MSP for this request until I actually read all of SP1090000. Did you know that the same time limits are stated twice in this short SP? And within a few paragraphs apart?? It's true (see 109-2.3 and 109-3)!! No, really!!!! I'm not kidding!!!!

Anyway, the more I looked, the more logically I saw the whole thing could be revised and corrected. I've attached a red-line/strikethrough file outlining my suggested corrections.

I'd like to propose we change the workbook file to reflect the attached, revised SP. I'd be more than happy to discuss this proposal should you feel the need to do so.

Have a great day and try to stay warm!
