

SP1050813 CONTRACTOR QUALITY CONTROL GENERAL REQUIREMENTS
COMMENTS FROM INTERNAL/INDUSTRY REVIEW

William Sears, P.E.

Comment: (10-2-12) Turnpike Construction has reviewed the attachments and suggests revising the approval of the supervisory personnel in the below referenced paragraph to acceptance of the supervisory personnel.

CONTRACTOR QUALITY CONTROL GENERAL REQUIREMENTS.
(REV 10-1-12)

ARTICLE 105-8 (Pages 138 – 146) is expanded by the following.

105-8.13 Geotechnical Foundation Services Personnel For Design Build Projects:

105-8.13.1 General: Provide qualified personnel to design foundations and provide geotechnical analyses and recommendations for the design of roadways and structures for the project. Provide qualified and trained personnel to perform foundation testing, inspection of the construction activities and oversight of the foundation construction operations. Ensure that the personnel provided meet the registration and qualification requirements specified herein and that these requirements are maintained throughout the duration of the design and construction of the project elements where these personnel are required to work.

Submit qualification statements for the geotechnical, dynamic testing, load testing and non-destructive testing personnel to be used on the project for acceptance by the Engineer. The Department will review these qualification statements, provide comments or request additional information within 15 working days, excluding weekends and Department observed holidays. Do not begin Design or Construction until the qualifications of supervisory personnel have been ~~approved~~ **accepted** by the Engineer. Acceptance of the Design-Build Firm's personnel does not relieve the Design-Build Firm of the responsibility for obtaining the required results in the completed work.
