Chase,

Please see the comments below by Lou Triandafilou of the FHWH. I'm not sure if you have responded to comments yet. Hopefully, we can address these without affecting the document?

Regards,
Gevin J. McDaniel, P.E.

Subject: RE: Industry Review 1050302-MM12.1

Good Morning, Gevin; I wanted to follow-up this note from last month to let you know that we have the following minor comments on the draft spec you had sent out for review, for your consideration:

1. Page 12-1-4: Section F notes that all inspections are to be performed by a 'qualified' technician. Suggest adding a note to clarify who would be qualifying the technician, and by what standard.
2. Page 12-1-4: Section F3 notes establishing 'realistic acceptance standards.' Suggest clarifying which industry standards are intended here (assuming they do exist!!).
3. Page 12-1-5: Section I refers to applicable ASTM or AASHTO standards for storing and marking materials. Suggest being more specific as to provision number for each standard (assuming they exist in both ASTM and AASHTO).
4. Page 12-1-5, Section M: In the last sentence, suggest moving the phrase, "in the presence of a representative of the Department" after the word, "conducted."
5. Page 12-1-6, Sections 12.1.8.2 & 12.1.8.3: The last sentence in each of these sections defines a LOT. The first section has an 'or' and the 2nd section has an 'and' in it. Please clarify the reason for the difference between the two.

My apologies for being tardy with the response, Gevin, and for not entering these into the website. Still hope they will be helpful to you.

A Merry Christmas and a Happy New Year to you and your family.

Lou Triandafilou, P.E.

=====

Thanx very much for sending this, Gevin. I will send this note on to our Team, and ask for review comments back in time for me to get them to you by 12/17.

I've already gone through the earlier version you sent me, and will add in any other comments from the Team.

Have a Happy and Safe Thanksgiving Holiday.

Louis N. Triandafilou, P.E.

Lou,

The FDOT Materials Manual is officially out for Industry Review. Please use the link in the email below.

After clicking on the link below, you will be directed to the Industry Review webpage where the Specification Section 105 revision is posted. Please note the end of the review period is 12-17-2013. Click on the "1050302-MM12.1" link as shown:

Industry Review

Specification Development Procedure regulates the development and implementation of new or modified specifications and related pay items. The following files are in the developmental process and are posted for Industry Review. If you have comments, please use the comments section below. To track the History of proposed revisions go to: [Track the Status of Proposed Revisions](#).
Note: Files on this page are in Adobe Acrobat (PDF) format.
File Sizes ranges from 23 to 30 kb

Specification	Description	Origination	Review End
1050302-MM12.1	Contractor Quality Control General Requirements - Compliance with the Materials Manual	1050302-MM12.1	12-17-2013
9250000	Curing Materials for Concrete	9250000	12-13-2013
3500100	Cement Concrete Pavement	3500100	12-12-2013

You will then be directed to the revision for Section 105, which will have a link to the Materials Manual as shown:

<http://www.dot.state.fl.us/specificationsoffice/Implemented/URLinSpecs/Files/section112.pdf>
<http://www.dot.state.fl.us/specificationsoffice/Implemented/URLinSpecs/files/Section114.pdf>
<http://www.dot.state.fl.us/specificationsoffice/Implemented/URLinSpecs/files/Section115.pdf>

Producers of Fiber Reinforced Polymer Composites shall meet the requirements of Section 12-1, Volume II of the Department's Materials Manual, which may be viewed at the following URL:

<http://www.dot.state.fl.us/specificationsoffice/Implemented/URLinSpecs/files/section12.1-110813.pdf>

Please let me know if you have any questions.

Regards,

Gevin J. McDaniel, P.E.
