Suggest changing the Basis of Payment (455-50) section to be similar to the Method of Measurement (455-49) section where the subheading for Auger Cast Pile was deleted and incorporated in the paragraph text. This suggestion is based on the deletion 455-50.1 Protection of Existing Structures and only remaining title of “Auger Cast Piles” under Basis of Payment. No change would be necessary for the text for the Basis of Payment paragraph since Auger Cast Pile is indicated in the first sentence. My suggestion is to simply delete the heading “455-50.1 Auger Cast Piles” for consistency. (Chad Rucks)

Response: For consistency with other parts of Section 455, we will keep Subarticle 455-49.1. Change made.
