Comments: (10-12-16)

9-2.3.2, last paragraph:

Shouldn't it say: Any quantity over the actual quantity shall not be paid.

prices as shown in Table 9-1. Any quantity over the <del>designed spread rate specified in the Contract Documents</del> <u>adjusted quantity</u> shall not be paid.
---------------------------------------------------------------------------------------------------------------------------------------------------------------------

Response: No, an adjusted quantity is determined based on design quantity that is adjusted for the Gmm's (or Gsb's for FC-5) for the asphalt mixes used. Any quantity placed that is over that adjusted quantity shall not be paid.

No change made.
