COMMENT: RSAC Policy Recommendation
II. Section C Impacts of Quality of Life
Suggestion to add ① fuel efficiency of trains
② possible reduction of road maintenance = tax payer savings

referring to energy policy
Industry average is 436 miles on one gallon of diesel fuel.

There are several studies out there that examine these impacts at the national level. Cambridge has prepared several as well as AASHTO recommendations.

Please give completed form(s) to the Facilitator(s) for inclusion in the meeting summary report. Additional comments can be made on-line: www.dot.state.fl.us/rail/plandevl.htm
