

## Session 45

Ed Kestory

FL. Dept. of Transportation

### *District 5 - District Estimates Web Site Information*

#### **Topic Description**

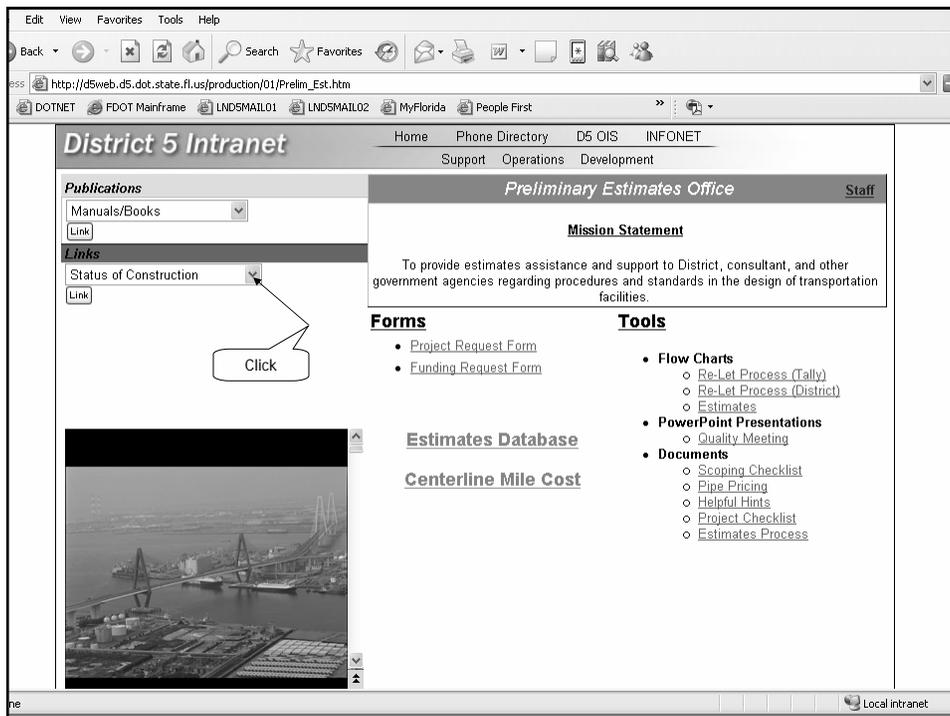

I will discuss the information that is on the District V Estimates website. There will be brief powerpoint presentation describing where the information is located and how this can aid our consultants in monitoring their project cost and how this relates to work program.

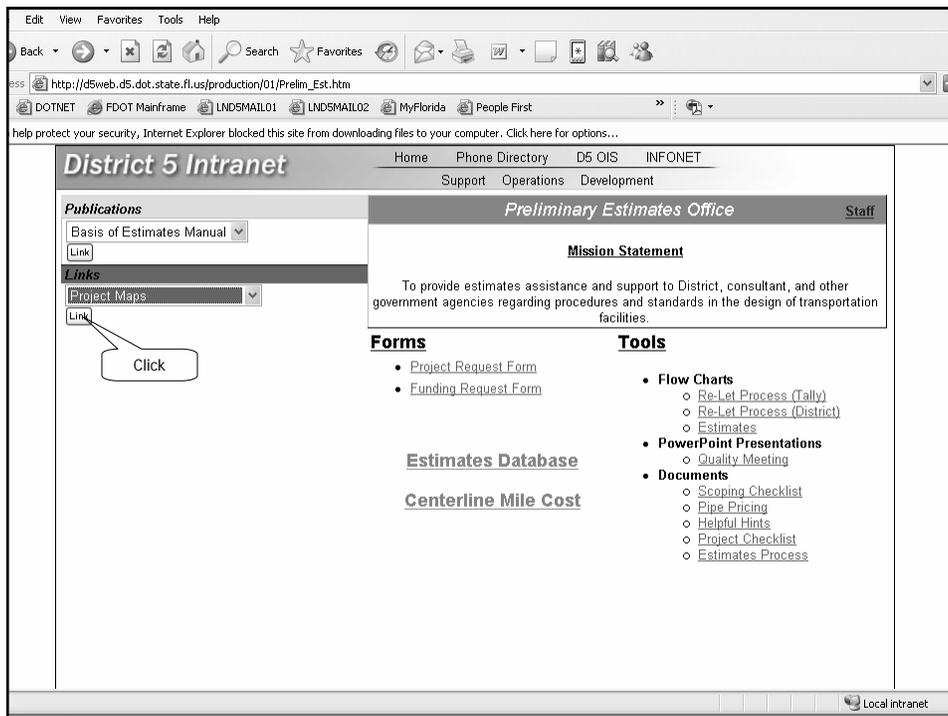

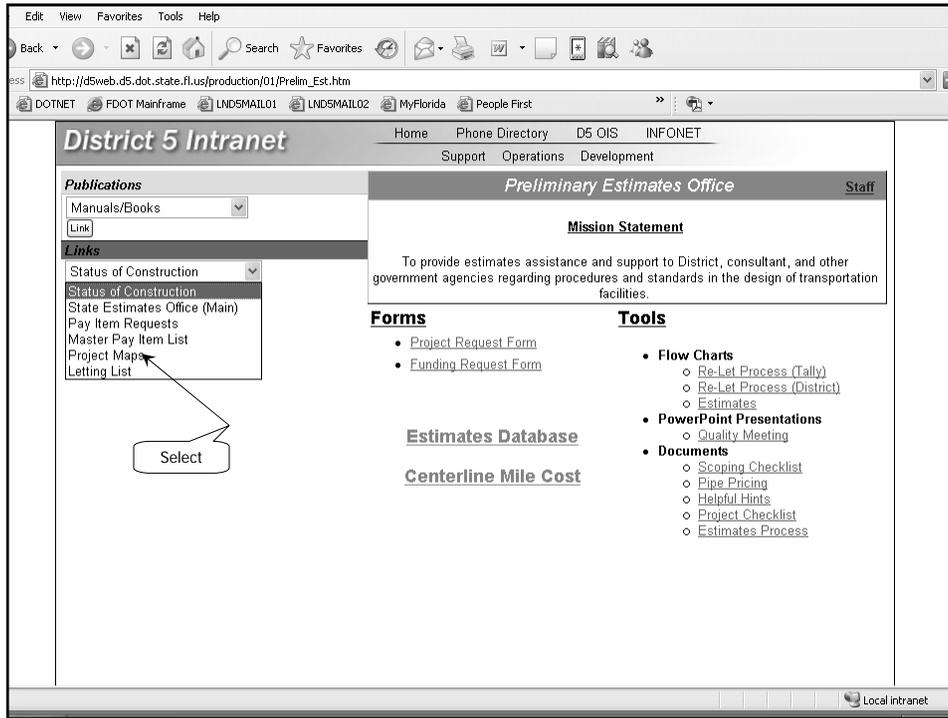

#### **Speaker Biography**

I am a registered Professional Engineer with the State of Florida. I obtained a Bachelor Degree in Civil Engineering and a Master's Degree in Structural Engineering from the University of Florida. I have been with the Department for six years, all of which have been in District V. After completing the P.E. training program, I joined the District Structures Design Department. For the past year plus I have been the District Estimates Engineer and acting as the District Specifications Engineer for the last seven months.

### Having trouble with TRNS\*PORT pay items?

Here are some helpful hints:

1. **Verify the letting date and Spec Year.** This information is shown on the project summary- above the project's category list in the Designer Interface.  
For projects let through 12/2006, the pay item Spec Year (and Master File) will be '04. For projects let after 1/2007, the pay item Spec Year (and Master File) will be '07.  
If the letting date and Spec Year are not correct, STOP. Contact the Project Manager and/or District Estimates Office.
2. **Pay Items that were valid before are now missing/obsolete.** The '04 Master has 10,000+ items; the '07 Master has 500+ items. While new items are opened every day, most are opened "upon request". Here is how to request an item:

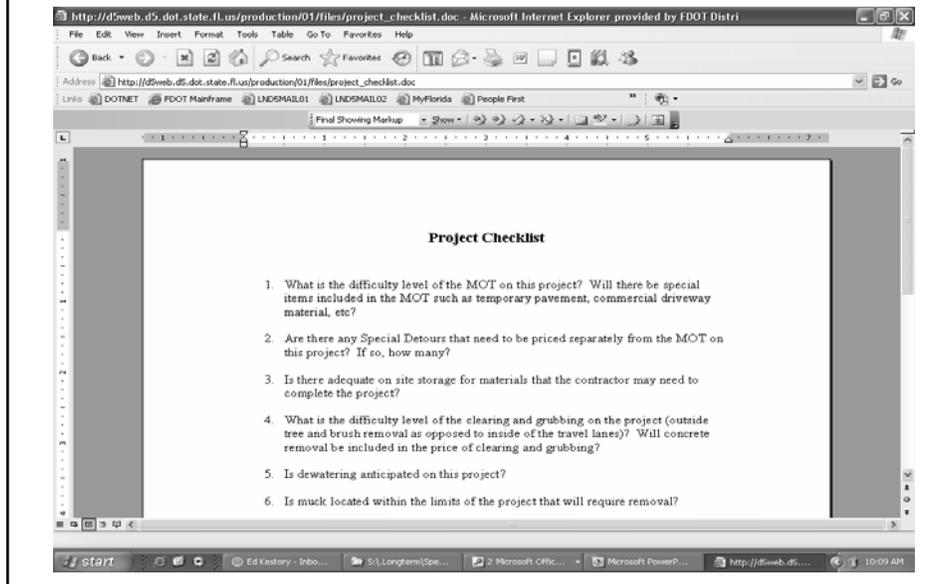

**A. Check the Master File** using the Designer Web pages. Remember to request the current Spec Year.
