Question 1: I can't open a macro-enabled Excel file from the PDF Portfolio/Package	11

What is a PDF Package or PDF Portfolio?

A PDF Package/Portfolio is when multiple documents are packaged together into one PDF file. The documents can be in different formats and created in different applications. Each individual document retains its individual properties. Each individual document can be opened independently of other documents in the PDF Package/Portfolio (so long as the necessary application is installed).

Why do I need a PDF Package/Portfolio?

PDF Package/Portfolios are great when multiple files need to be kept together for distribution or archiving. In the paper world, you might staple these documents together or put them in the same file folder or box.

Another benefit is combining several digitally signed documents into one package without invalidating the signatures.

How do I make a PDF Package/Portfolio?

Bluebeam:

On the file tab, select the down arrow next to Create, then select PDF Package.

Select Add Files.

Hide Folders		Save	Cancel	

Nuance:

Select File.

On the New tab, select Create PDF Portfolio.

Select the icon for the task you wish to perform.

1) When you select Add files, navigate to and select all the files to include in the portfolio.

2) When adding an existing folder the window will look like the "Browse For Folder" window pictured below.

Browse For Folder X
Choose folder to add to portfolio:

Frequently Asked Questions

Question 1: I can't open a macro-enabled Excel file from the PDF Portfolio/Package.

Use Bluebeam or Nuance to open macro-enabled Excel files (**.xlsm**) from the PDF Portfolio/Packages. Adobe security settings will not open macro-enabled Excel files.

NOTE: Ensure <u>all</u> contractor certificates (ex. *Form Nos 700-050-62* and *700-050-67/68*) are submitted as **.xlsx**. Certifications submitted as **.xlsm** should be sent to the contractor for resubmittal per the form instructions.

The only **.xism** file submitted in a PDF Portfolio/Package should be *Form 675-030-20A, Asphalt Roadway* – *Daily Report of Quality Control* within the *Asphalt Lot Submittal Package*.
