

**2017**  
**FLORIDA TRANSIT**  
**INFORMATION**  
**AND**  
**PERFORMANCE**  
**HANDBOOK**

This Handbook offers a general overview of public transit in the State of Florida. The information in the following pages provides insight into transit's contribution to meeting the statewide transportation objectives and mission of the Florida Department of Transportation (FDOT). Additionally, the information is used in reporting statewide performance measures.

Public transit plays an important role in maintaining the livability of Florida's growing communities. Transit not only helps alleviate traffic congestion and improve air quality, but also provides mobility for many of Florida's citizens, as well as visitors and tourists to the Sunshine State. Transit also plays a critical role in meeting the mobility and accessibility needs of transit-dependent Floridians and visitors who, due to physical handicap, age, or economic disadvantage, cannot drive or own an automobile. By providing mobility and accessibility to millions of Florida's residents and visitors, transit helps to improve the overall quality of life in Florida's communities.

This Handbook provides a synopsis of FDOT's transit resources, a profile of Florida's transit systems, and a snapshot of their performance in 2016. Although there are rural and urban transit systems in Florida, the focus of this handbook is on Florida's urban fixed-route transit systems. Information about Florida's demand-response transit systems can be obtained from the Annual Operations Report published by Florida's Commission for the Transportation Disadvantaged.

## FDOT Mission

To provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity and preserves the quality of our environment and communities.

# FDOT Public Transit Office

**THE MISSION** of the FDOT Transit Office is to “identify, support, advance, and manage cost-effective, efficient, and safe transportation systems and alternatives to maximize the passenger-carrying capacity of surface transportation facilities.”

The FDOT Transit Office consists of three sections (Transit Planning; Grants Administration; Transit Operations and Safety), each of which has specific areas of responsibility.

## Transit Planning

The Transit Planning unit is responsible for statewide transit planning, legislative, and policy analysis, developing and monitoring the implementation of state transit development planning (TDP) rules and guidelines, performance monitoring, transit information systems, transit facilities planning, transit oriented development, technical assistance, research and training. Some of the programs and activities implemented and managed by the Transit Planning unit in fulfillment of these responsibilities are:

Development of Florida's transit strategic plan; preparation of transportation development plan (TDP) policy guidance and training; development and support of the Florida Transit Information System (FTIS), Transit Boardings Estimation and Simulation Tool (TBEST), Florida Transit Planning Network (FTPN); integration of transit in traffic system management and operations systems (TSM&O), and travel demand modeling; bus operations on shoulders, premium transit project development processes, and development of transit performance measures and transit capacity and quality of service measures.

## Grants Administration and Commuter Assistance

The Grants Administration and Commuter Assistance unit provides financial and technical assistance to Florida's transit agencies and commuter assistance services. Staff also coordinates with and provides technical assistance to the Commission for the Transportation Disadvantaged. This unit's responsibilities fall into eight areas: Federal Transit Administration coordination; grant management; financial management; rural transit technical assistance; urban transit technical assistance; innovative finance; commuter assistance; and legislative analysis.

## Transit Operations and Safety

The Transit Operations and Safety unit is responsible for developing and implementing transit programs that provide services and technical assistance to support transit operational and maintenance functions and activities. This unit also develops standards and oversees compliance with State and Federal regulations. Some of the programs administered by the Transit Operations and Safety unit include the Florida Operations Network, the Transit-Research-Inspection-Procurement Services, and the Transit Maintenance Analysis & Resource Center.

# Florida's Transit Systems

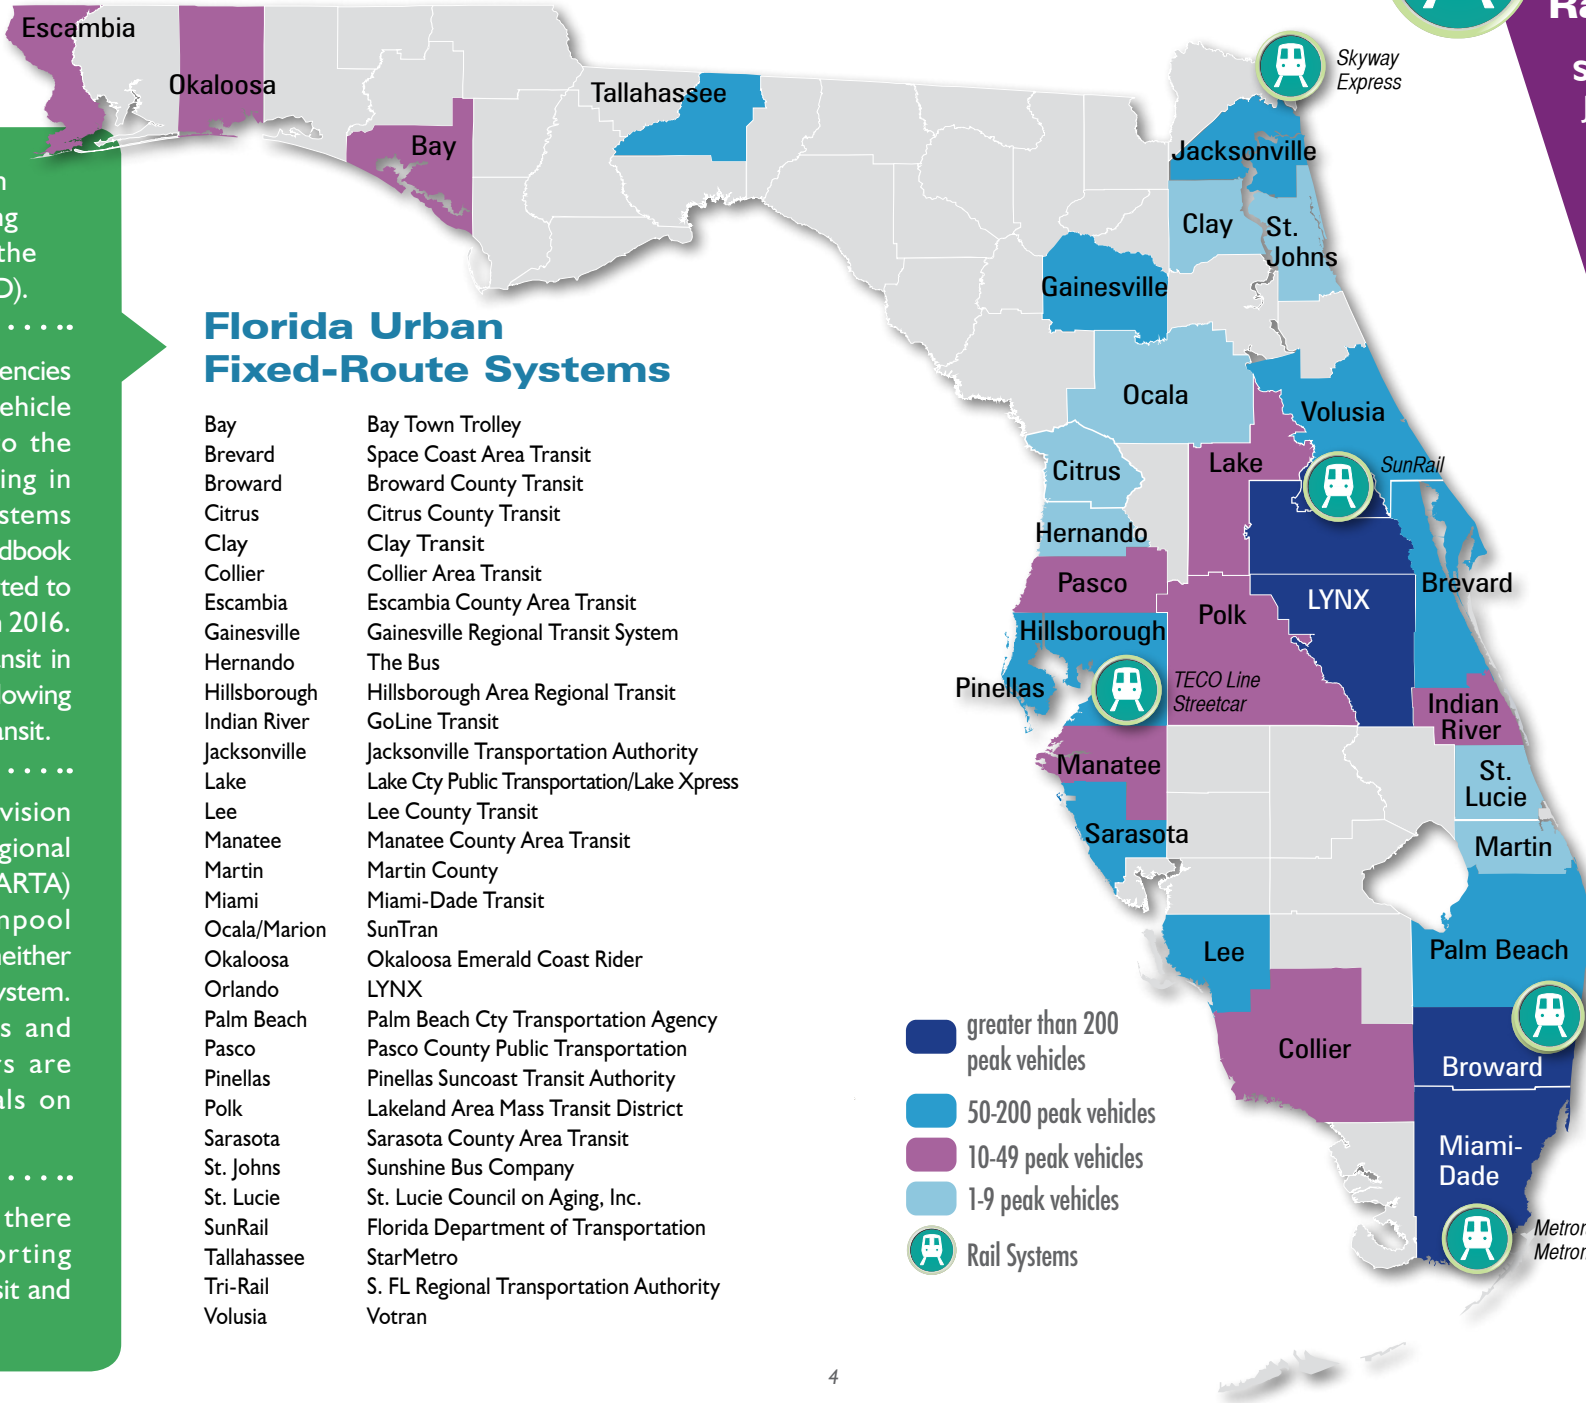

In 2016, there were 31 urban fixed-route systems operating in Florida that reported to the National Transit Database (NTD).

During 2016, Florida's transit agencies ranged in size from the six-vehicle system in Ocala (SunTran) to the 1,077-vehicle system operating in Miami-Dade County. The systems included in this edition of the Handbook represent only those that reported to the National Transit Database in 2016. More information on public transit in Florida can be found at the following website: [www.dot.state.fl.us/transit](http://www.dot.state.fl.us/transit).

Charlotte County Transit Division and the Tampa Bay Area Regional Transportation Authority (TBARTA) are required to report vanpool information to NTD; however, neither agency operates a fixed-route system. Please note that Charlotte's and TBARTA's vanpool numbers are included in the Florida totals on page 5, where applicable.

For NTD report year 2016, there were two new urban reporting agencies: Citrus County Transit and Clay Transit.

## Florida Urban Fixed-Route Systems

Bay	Bay Town Trolley
Brevard	Space Coast Area Transit
Broward	Broward County Transit
Citrus	Citrus County Transit
Clay	Clay Transit
Collier	Collier Area Transit
Escambia	Escambia County Area Transit

## 2015 and 2016 Statewide Totals

FDOT Public Transit Office  
605 Suwannee St., Mail Station 26, Tallahassee, FL 32399-0450  
(850) 414-4500  
[www.dot.state.fl.us/Transit](http://www.dot.state.fl.us/Transit)

In 2016, 31 fixed-route transit systems in Florida reported ridership and other data. In addition, five systems operate at least one rail mode. The data shown below and on the following pages represent fixed-route bus, rail services, and vanpool services only (excludes demand-response service) for 2015 and 2016 from the National Transit Database. The data shown below represent closed-out, validated numbers as of October 2017. However, it is possible that some figures may be updated in the subsequent reporting year. Please see page 4 of this Handbook for more information on Florida's transit systems.

*These totals include vanpool services provided by Charlotte County and TBARTA, except for Route Miles and Resident Access to Transit, which exclude all systems' vanpool data. Passenger Trips per Employee FTE excludes purchased transportation data.*

		2015	2016
<b>GENERAL INFORMATION</b>	Service Area Population	16,641,353	16,392,750
	Service Area Population Density	1,285.2	1,188.1
	Operating Expense	\$1,191,866,309	\$1,232,858,715

	Passenger Trips per Capita	16.27	15.29
	Revenue Miles Between Safety Incidents	149,437	146,684
	Revenue Miles Between Failures	3,965	4,267

\* Resident Access to Transit is defined as the percent of the state's population that resides within one half-mile of an urban fixed route (motorbus or rail service). Because Florida's transit systems typically provide demand-response (e.g., Dial-a-Ride) or other services beyond a half-mile boundary around their fixed routes, a transit system's total service area population as reported in NTD is usually larger than its fixed-route service area. Approximately 84 percent of Florida's population resides within these total service area populations. Please see the definition for Resident Access to Transit in the Glossary of this document.

## Bay Town Trolley

Ms. Nancy Lohr, General Manager  
 919 Massalina Drive  
 Panama City, FL 32401  
 (850) 769-0557  
[www.baytowntrolley.org](http://www.baytowntrolley.org)

Bay Town Trolley provides contracted deviated fixed-route service in the Panama City Urbanized area and Bay Area Transportation provides demand-response service throughout Bay County. The Bay County Transportation Planning Organization (TPO) governs both services. Data representing the Bay Town Trolley's motorbus service for 2015 and 2016 are shown below.

		2015	2016
<b>GENERAL INFORMATION</b>	Service Area Population	105,192	105,192
	Service Area Population Density	1,813.7	1,813.7

	Revenue Miles Between Failures	17,434	47,433

# Florida's Urban Fixed-Route Transit System Summaries

## Broward County Transit (BCT)

Mr. Timothy Garling, Director  
 One N. University Drive, Suite 3100-A  
 Plantation, FL 33324  
 (954) 357-8300  
[www.broward.org/BCT](http://www.broward.org/BCT)

Broward County Transit is an agency of Broward County government responsible for operating a fixed-route motorbus service with several routes connecting with Palm Tran (in Palm Beach County), Miami-Dade Transit, and Tri-Rail (commuter rail service). In addition to fixed-route bus service, BCT also partners with many municipalities within the county to provide Community Bus services, including Fort Lauderdale's Sun Trolley, and offers contracted paratransit service. BCT and Broward Community Bus data for the years 2015 and 2016 are provided below.

		2015	2016
<b>GENERAL INFORMATION</b>	Service Area Population	1,869,235	1,869,235
	Service Area Population Density	4,559.1	4,559.1

## Clay Transit

Mr. Shannon Clark, Director of Transportation  
 604 Walnut Street  
 Green Cove Springs, FL 32043  
 (904) 531-5029  
[claytransit.com](http://claytransit.com)

The Clay Council on Aging, Inc., operating as Clay Transit, serves all of Clay County's transportation needs via a system of deviated fixed routes or flex routes and coordinated paratransit services. The flex route operation currently consists of six routes serving seniors, the disabled and other transportation disadvantaged, commuters and the general public in Middleburg, Keystone Heights, Green Cove Springs and Orange Park providing connections to the Jacksonville Transit Authority, Putnam County Transit and the Regional Transit System in Gainesville/Alachua County. 2016 represents the first year of urban data available for Clay Transit, shown below. *If an agency has zero safety incidents, revenue miles between safety incidents is n/a.*

		2015	2016
<b>GENERAL INFORMATION</b>	Service Area Population	n/a	210,000

# Florida's Urban Fixed-Route Transit System Summaries

## Gainesville Regional Transit System

Mr. Jesus Gomez, Director  
 34 SE 13 Road  
 Gainesville, FL 32601  
 (352) 334-2600  
[www.go-rts.com](http://www.go-rts.com)

The Regional Transit System (RTS) is a department of the City of Gainesville. An elected seven-member Commission governs the RTS. The Commission receives input from an advisory board comprised of citizens from the community. The RTS serves the City of Gainesville and parts of Alachua County with fixed-route motorbus service and contracts to provide demand-response transportation services throughout the City of Gainesville and up to three-quarters of a mile beyond its fixed-route network. The data shown below represent fixed-route motorbus data for RTS in 2015 and 2016.

		2015	2016
<b>GENERAL INFORMATION</b>	Service Area Population	163,990	163,990
	Service Area Population Density	2,157.8	2,157.8

## Hernando (TransHernando Express)

Ms. Vera Matthews, General Manager  
 1525 East Jefferson Avenue  
 Brooksville, FL 34601  
 (352) 754-4444  
[www.hernandobus.com](http://www.hernandobus.com)

The County contracts with Trans-Hernando to operate THE Bus, Hernando County's fixed-route transportation service. Trans-Hernando reports to the Metropolitan Planning Organization and a five-member Board of County Commissioners. The transit system provides fixed-route transit service to the city of Brooksville and Spring Hill, with a shuttle connecting the two areas. Trans-Hernando Para-Transit also provides demand-response service throughout Hernando County. 2015 and 2016 data representing THE Bus's fixed-route motorbus service are shown below. The County received a reporting waiver from FTA in 2016 and did not report passenger miles. Passenger miles for 2016 were estimated using average trip length from 2015 and passenger trips from 2016. *If an agency has zero safety incidents, revenue miles between safety incidents is n/a.*

## Hillsborough Area Regional Transit Authority (HART)

Mr. Jeffrey Seward, Interim Chief Executive Officer  
 1201 E. 7th Avenue  
 Tampa, FL 33605  
 (813) 254-4278  
[www.gohart.org](http://www.gohart.org)

The Hillsborough Area Regional Transit Authority (HART) operates motorbus service as well as the TECO Line Streetcar connecting downtown with the Ybor City Historic District. Paratransit service is provided for the City of Tampa, the City of Temple Terrace, and unincorporated Hillsborough County. The authority is governed by a Board of Directors comprised of twelve representatives appointed by the governing bodies of its members and the Governor of the State of Florida. 2015 and 2016 data for HART's fixed-route bus and rail services are shown below.

		2015	2016

## Miami-Dade Transit (MDT)

Ms. Alice N. Bravo, P.E., Director  
 Overtown Transit Village  
 701 NW 1st Court, Suite 1700  
 Miami, FL 33136  
 (786) 469-5406

[www.miamidade.gov/transit](http://www.miamidade.gov/transit)

Miami-Dade Transit is the largest transit agency in Florida, operating throughout Miami-Dade County, southern Broward County, and northern Monroe County. MDT is governed by Miami-Dade County, and is responsible for the management, construction, and operation of its services and facilities. Passengers have access to Metrobus, Metrorail (a 22-station heavy rail system), and Metromover (an automated people-mover system that serves the downtown Miami, Brickell and Omni areas). Paratransit is available through MDT's Special Transportation Service. Vanpool service is provided by Miami Lakes-vRide, Inc. The data shown below represent all of MDT's fixed-route services and area vanpool services (excluding paratransit operations) for 2015 and 2016.

## Pinellas Suncoast Transit Authority (PSTA)

Mr. Brad Miller, Chief Executive Officer  
 3201 Scherer Drive  
 St. Petersburg, FL 33716  
 (727) 540-1800  
[www.psta.net](http://www.psta.net)

The Pinellas Suncoast Transit Authority (PSTA) is the public transit provider for Pinellas County. In addition, two express routes travel between Pinellas County and Tampa, located in neighboring Hillsborough County. PSTA is an independent agency governed by an eleven-member Board of Directors comprised of elected officials and private citizen appointees. PSTA provides fixed-route motorbus services, including contracting for the Jolley Trolley in Clearwater, and also provides commuter bus and demand-response services. PSTA's fixed-route motorbus and commuter bus data for 2015 and 2016 are shown below.

## South Florida Regional Transportation Authority (Tri-Rail)

Mr. Jack Stephens, Executive Director  
 801 NW 33rd Street  
 Pompano Beach, FL 33064  
 (954) 942-7245  
[www.tri-rail.com](http://www.tri-rail.com)

The South Florida Regional Transportation Authority is an independent authority established by the Florida Legislature. A nine-member appointed Board of Directors governs the SFRTA. The SFRTA operates and manages the commuter rail system, Tri-Rail, as well as select motorbus services throughout Broward, Miami-Dade and Palm Beach counties. This page shows 2015 and 2016 data for these services. In 2015, 81 percent of the annual passenger trips shown were for commuter rail mode (4,400,977) with the remainder for motorbus services (1,001,058). Similarly, in 2016, 79 percent of the annual passenger trips shown were for commuter rail (4,241,486) with the remainder for the motorbus (1,100,336). *Safety incidents for commuter rail services are not reported in the NTD.*

\* In Jacksonville, seniors age 60 and over ride free. In Manatee, seniors age 80 and over ride free. In Miami, those age 65 and over can ride free with a Golden Passport and veterans ride free with a Patriot Passport.

\*\* For students, Lakeland, Polk, and Pinellas have a separate discounted cash fare (\$1.25). Lakeland and Polk have a separate daily discounted fare for students (\$2.50).

# Glossary of Terms

**Automated Guideway (MG):** A fixed-guideway transit system that operates with automated (driverless) individual vehicles or multi-car trains. Service may be on a fixed schedule or in response to a passenger-activated call button.

**Bus Rapid Transit (RB):** Fixed-route bus systems that either (1) operate their routes predominantly on fixed-guideways (other than on highway HOV or shoulder lanes, such as for commuter bus service) or (2) that operate routes of high-frequency service with the following elements: Substantial transit stations, traffic signal priority or pre-emption, low-floor vehicles or level-platform boarding, and separate branding of the service. High-frequency service is defined as 10-minute peak and 15-minute off-peak headways for at least 14 hours of service operations per day. This mode may include portions of service that are fixed-guideway and non-fixed-guideway.

**Commuter Bus (CB):** Fixed-route bus systems that are primarily connecting outlying areas with a central city through bus service that operates with at least five miles of continuous closed-door service. This service typically operates using motorcoaches (aka over-the-road buses), and usually features peak scheduling, multiple-trip tickets, and multiple stops in outlying areas with limited stops in the central city.

**Commuter Rail (CR):** Short-haul rail passenger service operating in metropolitan and suburban areas, whether within or across the geographical boundaries of a state, usually characterized by reduced fare, multiple ride, and commutation tickets and by morning and evening peak period operations.

**Demand-Response Service (DR):** Any system of transporting individuals, including the provision of designated transportation service by public or private entities, which is not a fixed-route system. This type of service is also known as “paratransit.”

**Demand-Response Taxi (DT):** A special form of the demand response mode operated through taxicab providers. The mode is always purchased transportation type of service.

**Deviated Fixed Route Service:** Transit service that operates along a fixed alignment or path at generally fixed times, but may deviate from the route alignment to collect or drop off passengers who have requested the deviation.

**Directly Operated (DO):** Transportation service provided directly by a transit agency, using their employees to supply the necessary labor to operate the revenue vehicles. This includes instances where an agency’s employees provide purchased transportation (PT) services to the agency through a contractual agreement.

**Fixed Guideway:** Any public transportation facility that utilizes and occupies a separate right-of-way or rails for the exclusive use of public transportation service including, but not limited to, fixed rail, automated guideway transit, and exclusive facilities for buses and other high-occupancy vehicles.

**Heavy Rail (HR):** Transit service using rail cars with motive capability, driven by electric power usually drawn from a third rail, configured for passenger traffic, and usually operated on exclusive rights-of-way.

**Motorbus (MB):** Mode of service involving passenger revenue vehicles operating on fixed routes and schedules on roadways.

**Park-and-Ride:** Parking garages and/or pavement used for parking passengers’ automobiles, either free or for a fee, while they use transit system facilities. The garages/lots are generally used as collector sites for rail or bus service. They may also serve as collector sites for vanpools or carpools, and may sometimes serve as transit centers.

**Purchased Transportation (PT):** Transportation service provided to a public agency from a public or private transportation provider based on a written contract. It does not include franchising, licensing operations, management services, or private conventional bus service.

**Streetcar Rail (SR):** This mode is for rail transit systems operating entire routes predominantly on streets in mixed-traffic. This service typically operates with single-car trains powered by overhead catenaries and with frequent stops.

**Vanpool (VP):** A transit mode comprised of vans, small buses and other vehicles operating as a ride sharing arrangement, providing transportation to a group of individuals traveling directly between their homes and a regular destination within the same geographical area. The vehicles have a minimum seating capacity of seven persons, including the driver.

#### GENERAL INFORMATION

**Operating Expense:** Reported total spending on operations, including administration, maintenance, and operation of service vehicles.

**Operating Revenue:** All revenues directly generated through the operation of the transit agency. Includes passenger fares, special transit fares, school bus service revenues, freight tariffs, charter service revenues, auxiliary transportation revenues, subsidy from other sectors of operations, and non-transportation revenues.

**Service Area Population:** A measure of access to transit service in terms of population served. The reporting transit agency determines the service area boundaries and population for most transit services using the definitions contained in the Americans with Disabilities Act of 1990 (ADA). This measure is reported at the system level, not by mode operated.

**Service Area Population Density:** Represents persons per square mile based on the service area population and service area size reported in the National Transit Database.

#### SERVICE SUPPLIED

**Peak Vehicles:** This refers to the number of vehicles operated in maximum (peak) service. It represents the number of revenue vehicles operated to meet the annual maximum service requirement, i.e., the revenue vehicle count during the peak hours of the peak days/weeks of the peak season (typically the rush period). Vehicles operated in maximum service exclude atypical days or one-time special events.

**Route Miles:** Number of directional route miles as reported in NTD data; defined as the mileage that service operates in each direction over routes traveled by public transportation vehicles in revenue service.

**Total Annual Revenue Hours:** Total hours of operation by revenue service vehicles in active revenue service.

**Total Annual Revenue Miles:** Number of annual miles of vehicle operation while in active service (available to pick up revenue passengers). This number is smaller than vehicle miles because of the exclusion of deadhead miles such as vehicle miles from the garage to the start of service, vehicle miles from the end of service to the garage, driver training, and other miscellaneous miles that are not considered to be in direct revenue service.

**Total Revenue Vehicles:** Number of vehicles available for use by the transit agency to meet the annual maximum service requirement. Total revenue vehicles includes spares, out-of-service vehicles, and vehicles in or awaiting maintenance, but excludes vehicles awaiting sale and emergency contingency vehicles.

#### SERVICE USAGE

**Annual Passenger Miles:** Number of annual passenger trips multiplied by the system's average trip length (in miles). This number provides a measure of the total number of passenger miles of transportation service consumed, and is typically derived based on sampling.

**Annual Passenger Trips:** Annual number of passenger boardings on the transit vehicles. A trip is counted each time a passenger boards a transit vehicle. Thus, if a passenger has to transfer between buses to reach a destination, he/she is counted as making two passenger trips.

**Average Trip Length:** Annual passenger miles divided by annual passenger trips.

#### QUALITY OF SERVICE

**Resident Access to Transit:** Provides the percentage of the population within a half-mile of fixed-route transit. This measure provides refined information compared to what is currently available in the NTD. For example, this measure provides a slightly narrower definition of access than the NTD service area definition which is a three-quarter-mile buffer around fixed routes. In addition, many of the Florida transit agencies that report in the urban NTD report their county populations as their service areas because they also offer county-wide demand-response service in addition to fixed-route services, and service area population is reported by system, not mode, in the NTD. Geographic Information Systems (GIS) were used along with General Transit Feed Specification (GTFS) data and data available from the American Community Survey (ACS) to compute this measure.

**Weekday Span of Service:** The number of hours that transit service is provided on a representative weekday in the operation of the transit agency. This indicator is determined by computing the number of hours between the values reported in the NTD for average weekday *time service begins* and *time service ends*. For transit agencies with more than one mode, the system total span of service takes into account the hours of operation for all modes and reports the span of hours that any transit service is provided on a typical weekday.

#### COST EFFICIENCY

**Operating Expense Per Revenue Hour:** Operating expense divided by total annual revenue hours; a key comparative measure which factors out vehicle speed. This is often important because vehicle speed is strongly influenced by local traffic conditions.

**Operating Expense Per Revenue Mile:** Operating expense divided by total annual revenue miles; a measure of the efficiency with which service is delivered and is another key comparative indicator.

**Operating Revenue Per Operating Expense:** Ratio of revenue generated through operation of the transit agency with respect to total operating expense.

**Passenger Trips Per Employee FTE:** Ratio of total passenger trips to system total full-time equivalents. Another measure of overall labor productivity.

**Total Employee FTEs:** Total number of payroll employees of the transit agency in terms of full-time equivalents (FTEs). All employees classified as capital are not included in this Handbook.

#### *COST EFFECTIVENESS*

**Average Fare:** Passenger fare revenues divided by the total number of passenger trips.

**Farebox Recovery Ratio:** Ratio of passenger fares to total operating expenses; an indicator of the share of total operating costs that is covered by the passengers' fares.

**Operating Expense Per Capita:** Annual operating budget divided by the service area population; a measure of the resource commitment to transit by the community.

**Operating Expense Per Passenger Mile:** Operating expense divided by the number of passenger miles; takes into account the impact of trip length on performance because some operators provide lengthy trips while others provide mainly shorter trips.

**Operating Expense Per Passenger Trip:** Operating expenditures divided by the total annual ridership; a measure of the efficiency of transporting riders; one of the key indicators of comparative performance of transit properties since it reflects both the efficiency with which service is delivered and the market demands for the service.

**Passenger Fare Revenue:** Revenue generated annually from carrying passengers in regularly scheduled service.

#### *SERVICE EFFECTIVENESS*

**Passenger Trips Per Capita:** Average number of transit boardings per person per year. This number is larger in areas where public transportation is emphasized and in areas where there are more transit dependent persons, and is a measure of the extent to which the public utilizes transit in a given service area.

**Passenger Trips Per Revenue Hour:** The ratio of annual passenger trips to total annual revenue hours of operation; reports on the effectiveness of the service because hours are generally a better representation of the resources consumed in providing service.

**Passenger Trips Per Revenue Mile:** The ratio of annual passenger trips to total annual revenue miles of service; a key indicator of service effectiveness that is influenced by the levels of demand and the supply of service provided.

**Revenue Miles Between Failures:** Number of total annual revenue miles divided by the number of revenue vehicle system failures; an indicator of the average frequency of delays because of a problem with the equipment.

**Revenue Miles Between Safety Incidents:** Number of total annual revenue miles divided by the number of major safety incidents; reports the average interval, in miles, between incidents.

**Revenue Vehicle System Failures:** Total number of failures that occur during revenue service, deadheading, and layovers. A failure is classified as the breakdown of either a major or minor element of the revenue vehicle's mechanical system.

**Safety Incident:** A collision, derailment, fire, hazardous material spill, act of nature, evacuation, or an event not otherwise classified occurring on transit right-of-way, in a transit revenue facility, in a transit maintenance facility, or involving a transit revenue vehicle and meeting established NTD thresholds.

# FDOT District Offices Modal Development (OMD)

The Florida Department of Transportation is decentralized in accordance with legislative mandates. Each of the seven districts is managed by a District Secretary. The districts vary in organizational structure; however, each district, except for the Turnpike, District 8, has an Office of Modal Development (OMD), managed by a District Modal Development Manager. OMD organizational structures also vary from district to district, but each district OMD is responsible for transit, aviation, rail and seaport functions within their districts.

District OMDs coordinate with the FDOT Central Office in policy, planning and technical issues, but they are more involved in the day-to-day administration of FDOT's transit programs at the local level. They work more directly with local governments, transit agencies and Metropolitan Planning Organizations (MPOs) to address transit issues and programs specific to their districts. District OMD staff often represent the FDOT at local transit meetings and serve on local project committees. For information on FDOT transit activities in your district please contact your district PTO at the following addresses and phone numbers:

District	District Phone	Transit Agencies
1	(863) 519-2300 1-800-292-3368	Collier Area Transit; Lakeland Area Mass Transit District (CitrusConnection); Lee County Transit (LeeTran); Manatee County Area Transit (MCAT); Sarasota County Area Transit (SCAT); Polk County Transit Services
2	(904) 360-5457 1-800-207-8236	Clay Transit; Jacksonville Transportation Authority (JTA); Regional Transit System (RTS, Gainesville); St. Johns County (The Sunshine Bus Co.)
3	(850) 330-1205 1-888-638-0250	Escambia County Area Transit (ECAT); Okaloosa County (EC Rider), Bay County TPO (Bay Town Trolley); City of Tallahassee (StarMetro)
4	(954) 777-4110 1-866-336-8435	Broward County Transit (BCT); Palm Beach County (Palm Tran); Council on Aging of St. Lucie, Inc.; Indian River County; Martin County; South Florida Regional Transportation Authority (Tri-Rail)
5	(386) 943-5479 1-800-780-7102	Central Florida RTA(Lynx); Space Coast Area Transit; Volusia County (Votran); Ocala (SunTran); Lake County (LakeXpress); SunRail (FL Department of Transportation)
6	(305) 470-5349 1-800-435-2368	Miami-Dade Transit (MDT); South Florida Regional Transportation Authority (Tri-Rail)
7	(813) 975-6060 1-800-226-7220	Citrus County Transit; Hillsborough Area Regional Transit Authority (HART); Pinellas Suncoast Transit Authority (PSTA); Pasco County Public Transportation; THE Bus (Hernando County Transit)
